

Red Bull Corporate Office

# MICAL ROMANO OFFICE DESIGN FALL 2010

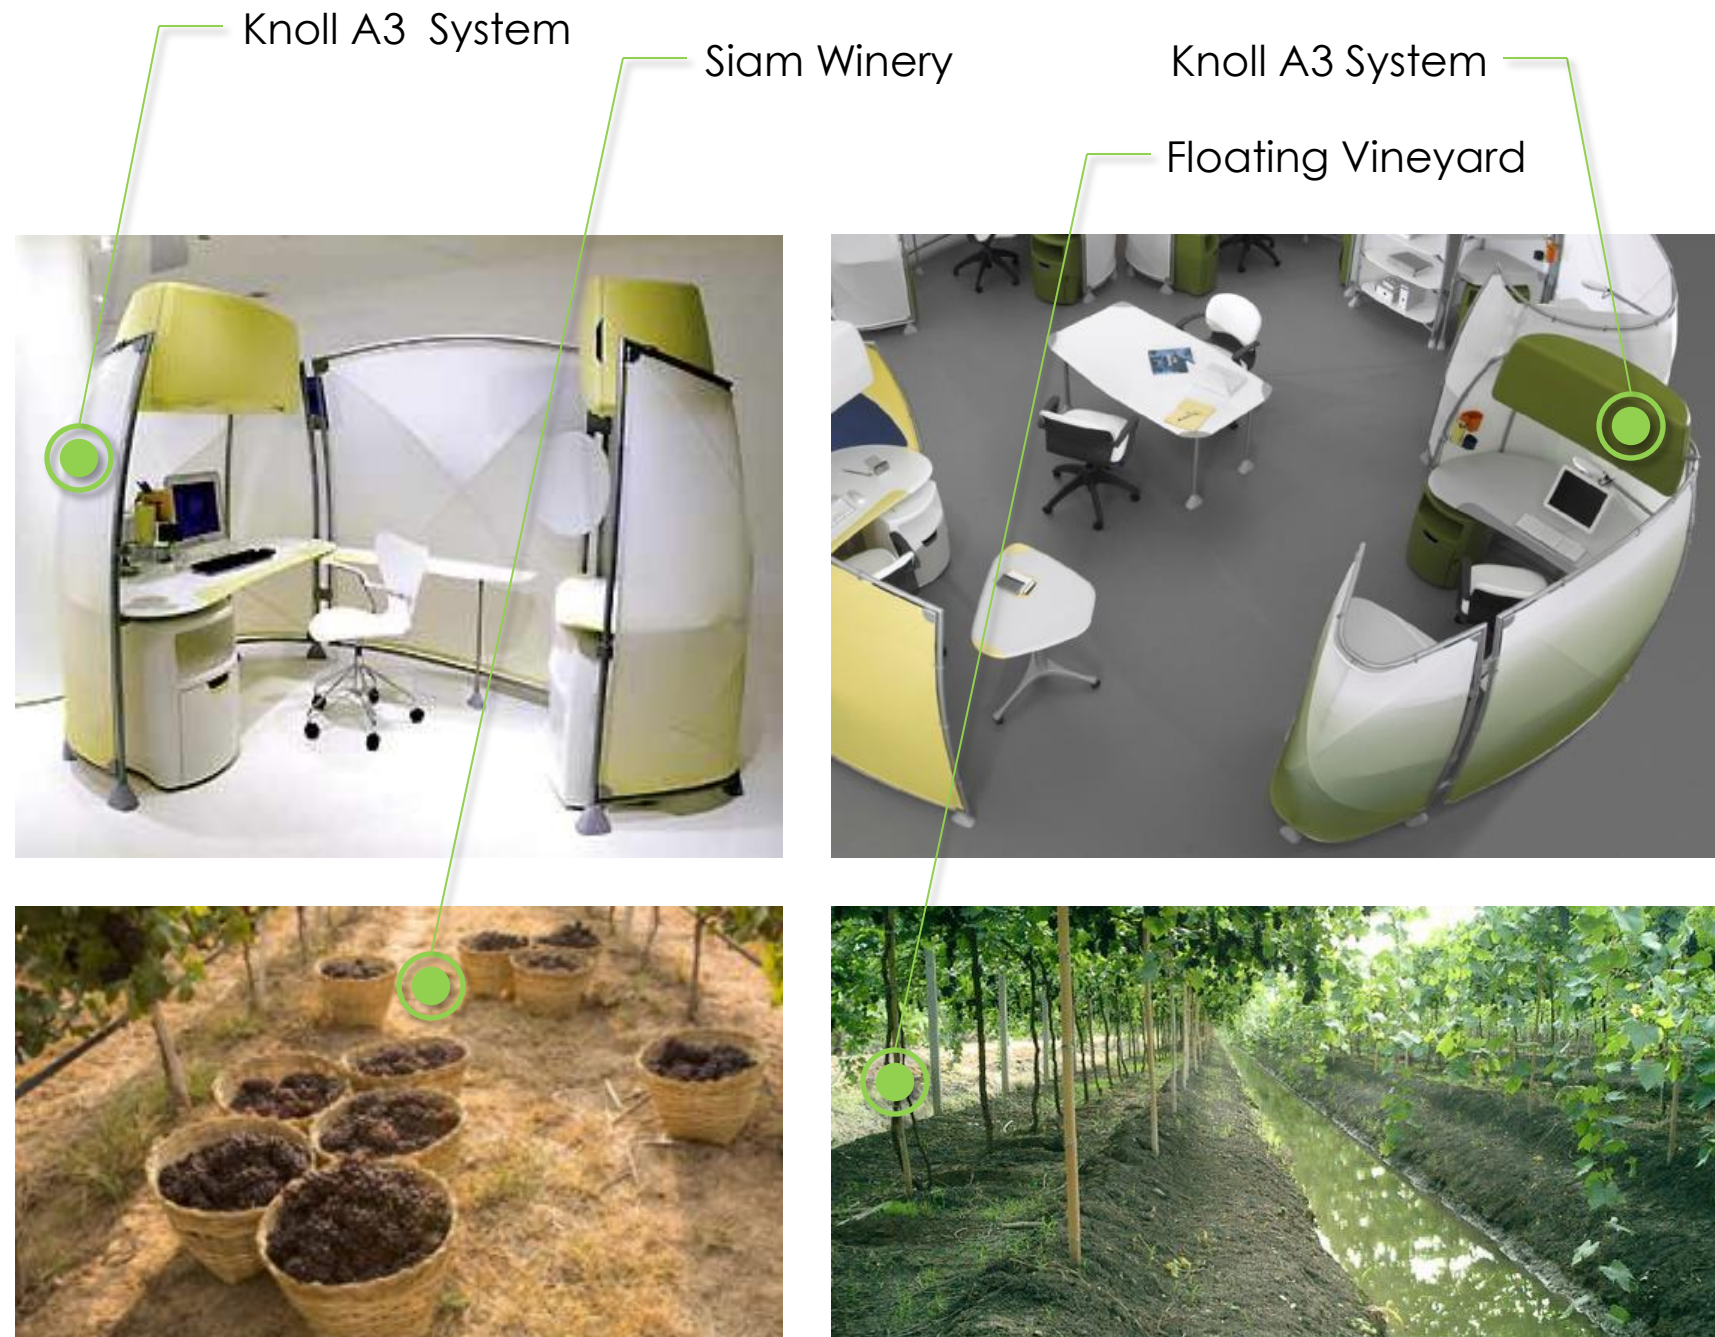

# Client Profile and Concept Statement

RED BULL distributes and markets a number of drinks, including the Sabai Wine Spritzer (associated with the Thai Siam Winery). They are moving into a new office building and are looking for a unique space that excites their employees, supports a fun work environment, and is unlike their typical color scheme.

The design for the RED BULL office will be inspired by the floating vineyards of branch company Thai Siam Winery. To reflect this vineyard, the style and arrangement of furniture will reflect the harvesting boats, the interior architecture will be similar to that of the sala, and the private offices will be circular in shape to resemble wine barrels. Overall, the space will reflect the Thai Siam Winery subtly and simultaneously offer a new style of environment for employees.
